## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's preliminary amendment filed 9/18/2001 is acknowledged and has been entered. Claims 1-31 and 38-43 have been canceled. Claims 32-37 and 44-50 are pending.

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 32-37, drawn to a method of measuring alternatively spliced, classified in class 435, subclass 6.

II. Claims 44-50, drawn to probe and kit, classified in class 536, subclass 24.3The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the product of invention II drawn to a peptide-labeled probe and kit can be used in a materially different process such as in nucleic acid amplification process to detect a variant nucleic acid sequence or in methods of sequencing or mutagenesis, or alternatively, in antisense or aptamer studies. The different inventions are patentably distinct requiring different fields of search.

3. Because these inventions are distinct for the reasons given above and the search required for any one Group is not required for the other Group, restriction for examination purposes as indicated is proper.

Art Unit: 1637

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cynthia B. Wilder, Ph.D. whose telephone number is (703) 305-1680. The examiner can normally be reached on Monday through Thursday from 9:30 am to 6:30 pm and on Friday from 9:30 am to 1:30 pm.
